DETAILED ACTION***Claim Rejections - 35 USC § 112***

Claims 1-14 and 25-33 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Instant claims 1-14 and 25 have been amended and new claims 26-33 submitted to specify that the photosensitive member and the intermediate transfer element are brought into contact "at a contact nip". Basis for this limitation is asserted as being present in the specification at page 5, lines 8-12. The specification at this passage states that the photosensitive member and the intermediate image-transfer or imaging transferring belt are brought into contact such that there is a nip contact breadth of several millimeters at a contact pressure of from 5 to 1000 g/cm². The specification is specific in this disclosure as requiring not just a contact nip but a contact nip under specific length and pressure conditions. As now presented, the claims fail to include these length and pressure conditions. The claims include contact lengths of more than several millimeters and less than several millimeters, including a line contact. The claims also include contact nip pressures of less than 5 and more than 1000 g/cm². Such embodiments are not disclosed in the specification for a contact nip. The claims as presented are not described in the specification as filed and include new matter as a result.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
